DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371^o of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claims 1, 14 and 22 are rejected under 35 U.S.C. 102(e) as being anticipated by Kumar et al US Patent No. 6,097,954.

Kumar discloses a system, see for instance figs. 4 and 5, having a plurality of demodulator fingers (42-1)-(42-n), each having an input for receiving a sample stream from antenna 34, an input for receiving Walsh codes (W0 and W2) (uncovering code) see fig. 5 and col. 4, line 52; an output (a soft decision output) to supply a combined signal (soft symbols) associated with demodulated information channels at the output of combiner 43 and a second output for

Art Unit: 2631

supplying pilot channel signals considered as the claimed (channel assignments) for associated output signals (soft symbols) see fig. 5 and col. 4, line 53-col. 5, line 13.

Allowable Subject Matter

3. Claims 2-13, 15-21 and 23-31 are allowed over the prior art of record.

Response to Arguments

4.

5.

Applicant's arguments filed 4/26/04 have been fully considered but they are not persuasive. It is alleged that Kumar does not show an input to receive an uncovering code. However, it is noted that fig. 5 of Kumar does show an input for receiving Walsh codes W0 and W2 (uncovering code). See col. 4, line 52.

6.

7. Applicant's arguments with respect to claims 1, 14 and 22 have been considered but are moot in view of the new ground(s) of rejection.

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

Art Unit: 2631

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

9. **Any response to this final action should be mailed to:**
